

Serious Storage. On the Go.

The CalDigit VR mini is a compact, bus powered two drive RAID system, supporting a quadruple interface for easy connectivity, and support for RAID 0, 1, and JBOD. The CalDigit VR mini has two removable drive modules and a frontside LCD. It includes easy to use software and packs a ton of performance into a small package, making it a truly portable storage solution that can fit in the palm of your hand.

Hardware RAID with Quadruple Interface

Hardware RAID support for RAID 0, 1, and JBOD provides maximum flexibility. Hardware RAID provides an independent CPU and dedicated cache memory to manage the RAID volume.

Power On the Go

The CalDigit VR mini is bus powered via FireWire, so no extra power supply is needed. When additional speed is needed use eSATA for data and FireWire for power.

- Quadruple Interface - eSATA, FireWire 800, FireWire 400, and USB 2.0
- LCD Display - Hard Drive Status, Capacity, RAID Level, Temperature, Serial Numbers
- Configurable RAID Modes - 0, 1, JBOD Set by LCD or Interactive Software
- Interactive Software Provides - Password Protection, Error/Event Log, Firmware Update, RAID Configuration, Turbo mode, Nickname Feature
- Portable Bus Powered Design - Removable 2.5" Drive Modules, All Aluminum Enclosure

Fast

The CalDigit VR mini can reach speeds up to 170MB/s in RAID 0, and over 85MB/s with RAID 1 protection. These high speeds allow for the most demanding tasks, like video editing.

Safe

RAID 1 provides the ultimate in protection and backup for valuable data, by mirroring data on both drives. If a drive fails all data can be restored.

Reliable

Made from quality components the CalDigit VR mini is designed to last, and comes with CalDigit's industry leading 1 year warranty and knowledgeable tech support.

Smart

An advanced environmental monitor provides detailed information about temperature and hard drive health, so you are always in the know.

Modular Design

The CalDigit VR mini has two removable drive modules, allowing for easy replacement and expansion.

Sexy

The sleek and sexy design is as functional as it is good looking. The all aluminum enclosure provides additional heat dissipation so no fan is needed.

Cool & Quiet

The CalDigit VR mini takes advantage of the latest technology, ensuring both a cool and quiet experience.

Manageable

The CalDigit VR mini comes with advanced software called RAID Tool that provides easy management, monitoring, diagnostic reports, email notifications, and firmware update capabilities.

Visual Aid

The easy to read orange back lit LCD provides valuable data and added confidence that's just a glance away.

Portable

The CalDigit VR mini is only 2 inches tall and 5 inches long, small enough to fit in the palm of your hand. The CalDigit VR mini's small sized makes it easy to take wherever you go.
